

K-LOVE is an excellent radio station. One we in the Des Moines area have needed for a long time. It is a positive "family friendly" station, that I don't have to worry about my kids listening too. In this day and age there is some pretty bad music and some pretty nasty DJ's. They say things that I really don't want my kids to hear. I also believe that it is good for our community. Because it is a positive alternative to the trash we have here. People get tired of listening to negative all the time, especially negative media coverage. K-LOVE is the best radio station I've ever listened to. Please don't allow the Des Moines area to loose this station. Thank you for listening.
